Sudoku Samurai

Image Sudoku

This game of Sudoku consists of a square with six rows and six columns, forming small squares. You have to put a symbol in each small square. Complete all the squares with a symbol in such a way that each symbol appears only once in each row and column, and only once in each rectangle.

Labyrinth

Help Liam find his tent back.

Find the shadow

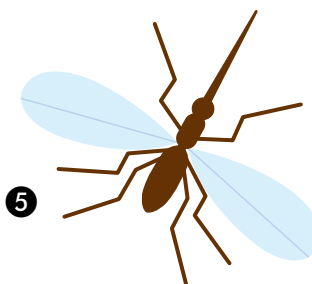

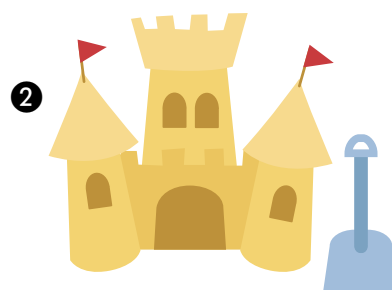

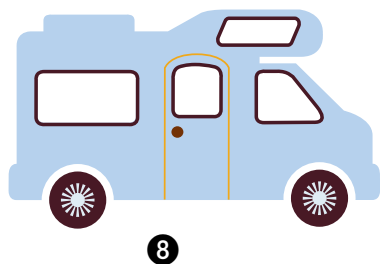

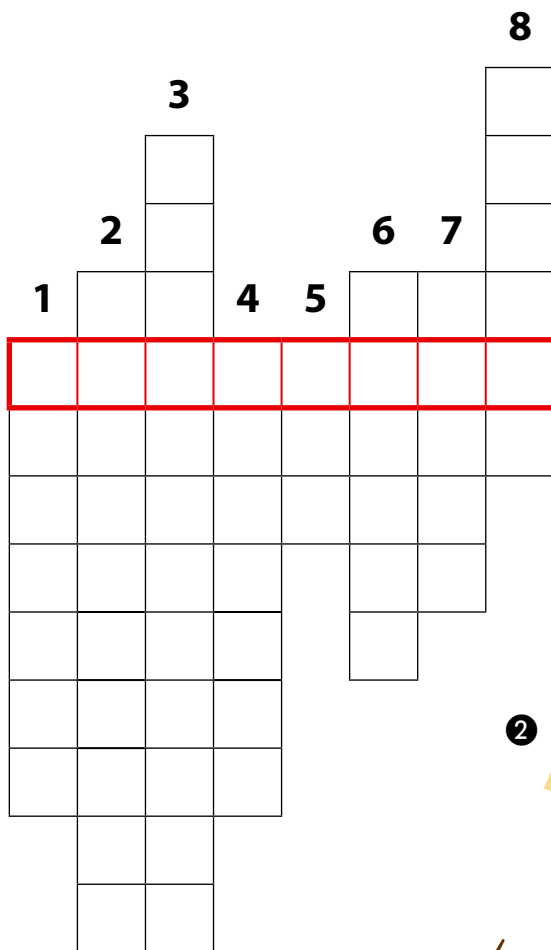

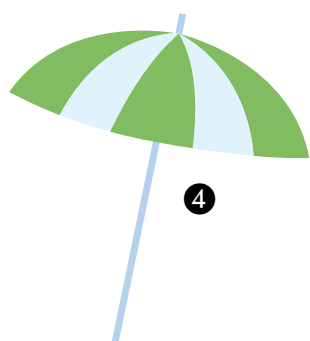

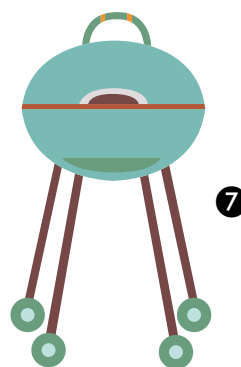

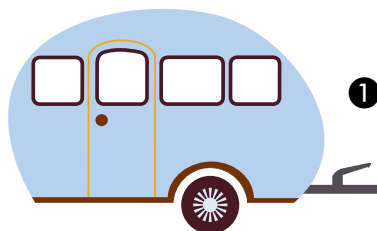

Find the shadows that match each shape and draw a line between them!

Crossword puzzle

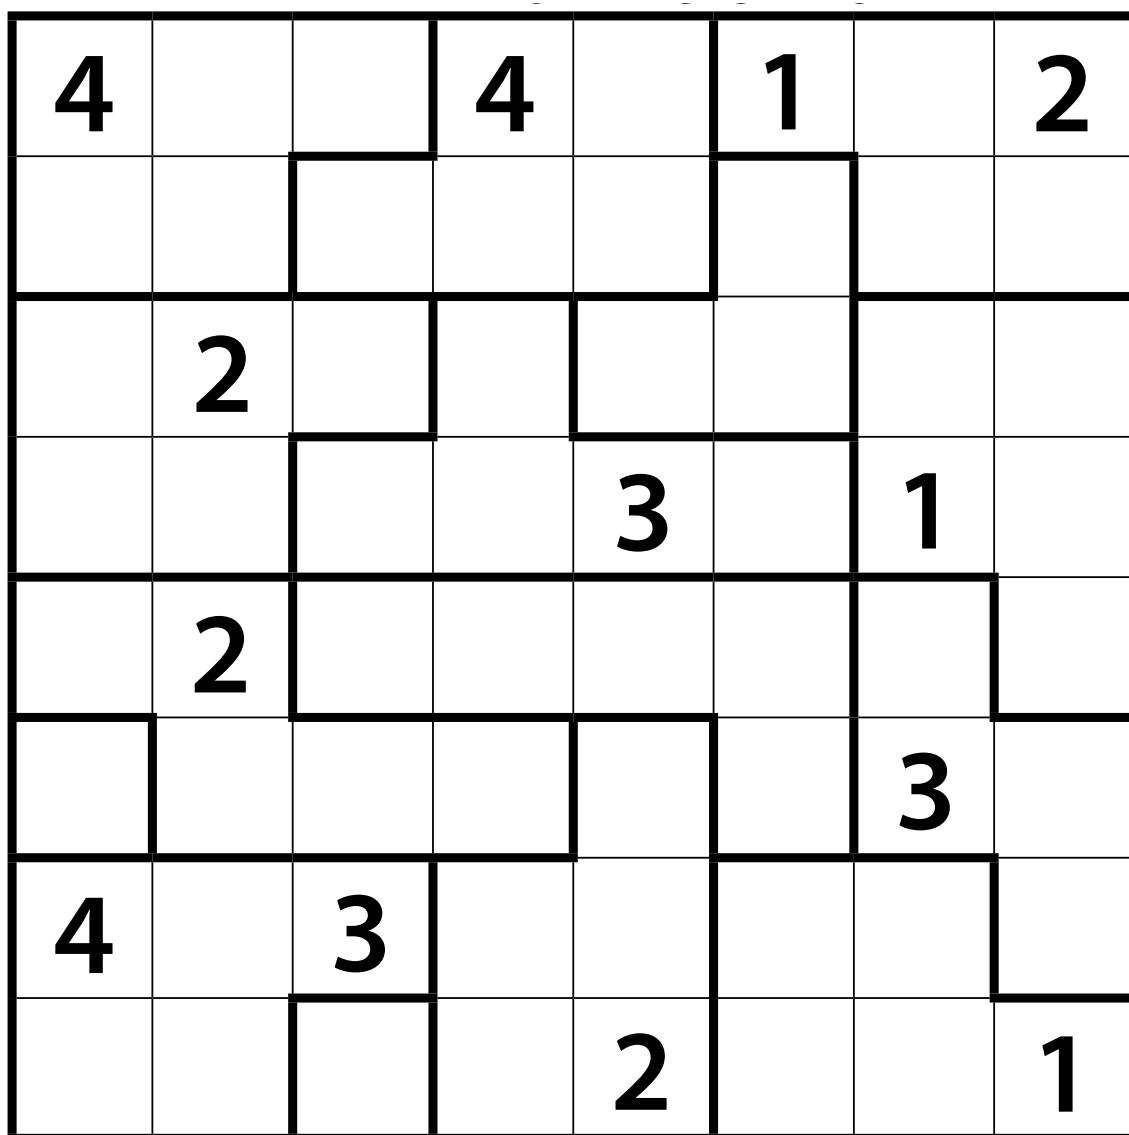

For each numbered clue, fill in the word that matches the accompanying picture, from top to bottom. Can you solve it?

Tectonic

Complete the gaps in each outlined block with the numbers 1, 2, 3, 4, 5 (the same number as the number of gaps) Use 1 to complete a block with 1 gap, 1 and 2 for a block with two gaps, etc. Gaps with the same number are not allowed to touch each other - not even diagonally!
